

Bachelor's Degree in BUSINESS AND MANAGEMENT

INTERNSHIP - ALTERNATIVE ACTIVITIES

Extraordinary Procedures due to Covid-19 emergency

In compliance with the Dean's urgent Decree rep. 1064/2020, Prot. No. 140879 of 17/03/2020, some **extraordinary measures** have been adopted to allow students to complete their internship during the Covid-19 emergency. You can read more about these measures at [this link](#).

The Deputy Directors for Teaching of the Departments of Management and ESOMAS, together with the Presidents of the Degree courses, have identified several alternative training activities for students who plan to graduate in July.

SAA Job placement office is still active and will support students in finding a remote internship with a company. According to the extraordinary procedures, 9 ECTS internships can be considered fulfilled if the student has completed 135 hours of remote internship or the alternative courses offered to BM students.

Students who plan to graduate in July, but who cannot **start** or **finish** their internships with a company, can choose among several alternative activities to obtain/complete the internship credits

Students will be able to choose among the following **alternative activities**:

- 1) A **Soft skill course** organized by SAA job placement office
- 2) A **consumer rights course**, by Prof. Coggiola (on Moodle)
- 3) A **STATA course** (on Moodle) which will begin by mid-May
- 4) A **remote internship with the Department of Management** (135 hours)

If students choose to attend option 2) or 3), they will have to pass a multiple choices test with at least 60% of correct answers.

In all cases (1,2,3,4), these activities will be recognized as INTERNSHIP on the exam transcript and will not have a grade ("idoneità").

Please note that this options are available just for **students who have obtained at least 140 ECTS**.

Once students have obtained at least 140 ECTS, they can write an email to internationaldegrees.management@unito.it specifying their preference.
