- If the training activities can continue **remotely**:

If the Company Tutors believe the internship can continue in smart working (remotely) they must inform of this possibility the Job Placement office via e-mail – with the trainees in cc – integrating and updating the learning objectives of the internship. The Job placement office will submit the request to

the Degree course, which will evaluate the proposal and provide a timely response to the Company Tutors and trainees.

- If internship **activities cannot be performed remotely**, the Company tutors should inform the Job Placement office via email – with the trainee in cc – about the total hours performed by the intern.
The Job Placement office will submit each case to the President of the Degree course so as to decide on a specific integrative activity.

Upon reaching the number of hours indicated above, students will be able to submit the final documentation and to register for the registration session by following the instructions on the reference sites.
